Date:

Project Name:

Project Address:

The purpose of this checklist is to give the minimum requirements needed to expedite the City's review process. All items shall be checked as included or marked N/A. The omission of required items may be cause for a delay in approval or rejection of the submittal without review.

Minor Development Review Checklist Items Required Pursuant to Chapter 156.075 City Code of Ordinances. A Minor development plan is a development having a structure or combined structures 5,000 square feet or less and/or a combination of structures and impervious areas 10,000 square feet or less (rooftops, paved/graveled areas, patios, etc.) and/or disturbing less than 1 acre and/or not involving new streets or utility extensions. A KY Registered Professional Engineer will be required if the site is located in FEMA 100 year floodplain, sensitive features exist, increase in impervious area greater than 10,000 sq. ft. or is defined by a Major Development Plan.

	Drawn to Scale		Size, Type & Location of Existing & Proposed Signs
	North Arrow		Driveway Entrance Location & Width
	Plan Date & Legend		KY Registered Professional Signature & Stamp (If Applicable)
	Property Owner's Name, Address, Phone & Email		Direction of Stormwater Run Off
	Property Address, PVA Map # & Size (Sq. Ft.)		Existing & Proposed Impervious Areas (Sq. Ft.)
	Copy of Deed & Recorded Plat		Total Area to be Disturbed (Acres)
	Adjacent Street Names		Landscape Plan
	Property Boundary, Dimensions, Setbacks, Size & Esmts		Location & Type of Screening (Required Between
	Dimensions & Use of Proposed Structures, Distance from Property Lines & to other Structures	_	Residential & Commercial Properties)
_	Off-street Parking, Maneuvering & Loading Spaces,		Location & Type of Refuse Container (Concrete Dumpster Pad Required) & Type of Screening
	Interior Circulation, Parking Spaces & Size, Driving Lane Widths & Handicap Details		Location, Intensity, Type, Size & Direction of Existing/Proposed Lighting

Three (3) days before construction, *Kentucky 811* must be contacted for utility marking. All potential erosion shall be controlled in such a manner so as to prevent any displacement of silt to the adjacent property owners, streams, and/or right-of-way. This control shall be implemented through proper installation of silt fence during the construction duration and maintained until proper ground cover has been established.

The City reserves the right to require a professional design plan when the proposed development, due to site constraints, has the potential to adversely affect adjoining owners. In addition, the City reserves the right to require other information integral to the review and approval of the development plan. This includes, but is not limited to, drainage calculations in areas that are flood prone, near a stream and/or in an area known to directly impact downstream properties.
