This guide has been developed by the Madisonville-Hopkins County Economic Development Corporation and local partners as a tool to help you start and grow your business.

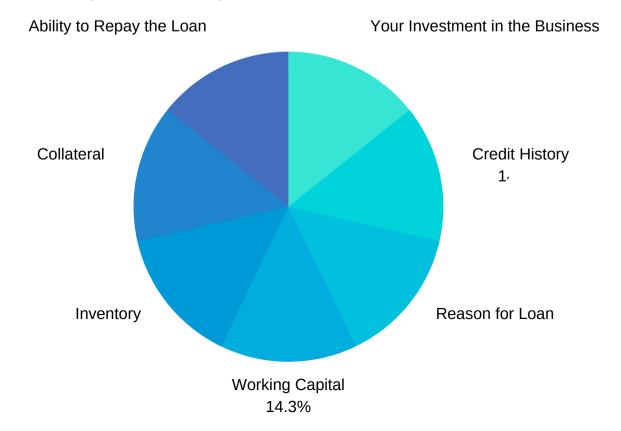

BUSINESS PLAN

One of the first steps in starting a business is planning and research. A Business Plan organizes all the necessary components required to start and maintain a business. It is also an instrument that will allow financial institutions and financiers to assess your business idea when seeking funding.

- The Small Business Administration has an easy template for creating a Business Plan. Go to https://www.sba.gov/business-guide/plan-your-business-plan
- Madisonville-Hopkins County Economic Development Corporation will serve as a resource to assist with business planning.

FINANCING & INCENTIVES

If additional funds are necessary to open your business, or support its operations, a loan from a bank may be necessary. The bank will require a business plan that describes cash flow statements for at least 12 months, balance sheets & 3 years of projected profit-and-loss statements. Bankers take into account several factors during consideration for a loan, including the following:

PERMITS & LICENSES

A starting point for determining appropriate license requirements in Kentucky is the Business Information Clearhouse's permits and licenses database. This online database will allow you to search for state licenses that apply to certain types of businesses.
